

What's Accepted

Electronics accepted at our drop-off locations

Display Devices

Televisions and monitors, including various technologies such as Cathode Ray Tube (CRT), flat panel (LCD, LED and plasma) and rear projection.

Non-Cellular Telephones

Includes corded and cordless telephones, as well as telephone answering machines.

Home Audio/Video Systems

Includes VCRs, DVD and CD players, digital cable and satellite equipment, speakers, amplifiers, receivers, data projectors and similar audio/video systems.

Desktop Computers

Desktop computers (including those acting as servers) and all bundled keyboards, mice, cables and internal components.

Portable Computers

Includes portable computers such as laptops, netbooks, notebooks and tablets.

Computer Peripherals

Includes both wired and wireless manual input devices such as keyboards, mice and trackballs.

Desktop Printers

Printers designed to reside on a work surface, including laser and LED, ink jet, dot matrix, thermal, dye sublimation and "multi-function" copy, scan, fax and print devices. Stand-alone desktop fax machines are also included in this category.

Personal/Portable Audio/Video Systems

Includes docking speakers, portable stereos, portable CD players, portable audio recorders, tape/radio players, headphones, digital media (MP3) players, voice recorders, and digital and video cameras.

Home Theatre In-A-Box (HTB) Systems

Includes pre-packaged disc player/speaker/amplifier systems for use with video or television display to create a home theatre experience.

Vehicle Audio/Video Systems (aftermarket)

Includes amplifiers, equalizers, speakers and audio/video components.

About Electronic Products Recycling Association

As a recognized industry-led not-for-profit organization, Electronic Products Recycling Association (EPRA) provides environmental compliance programs for manufacturers, distributors and retailers of electronics.

EPRA is responsible for implementing and operating, on behalf of their stewards, a safe and secure program for the recovery and reclamation of end-of-life electronic products.

Who are we?

Recycle My Electronics is your go-to resource for electronics recycling. We're here to help you recycle your end-of-life electronic products and provide educational resources.

The Recycle My Electronics program safely diverts more than

15 million devices from Canada's landfills and illegal export every year.

Q: What is Electronic Products Recycling Association (EPRA) Saskatchewan?

A: EPRA Saskatchewan is a not-for-profit industry-led organization that operates a government-approved end-of-life electronics recycling program throughout the province. Residents and businesses can drop off their unwanted electronics free of charge for safe, secure and responsible recycling at an EPRA Saskatchewan drop-off location.

Q: Isn't it important to reuse before recycling?

A: Absolutely. The EPRA Saskatchewan program is designed to manage end-of-life electronic products that have exhausted their reuse potential. If your electronic items are not at the end of their useful life, you are encouraged to explore reuse opportunities including donating them to family members, friends or authorized Reuse Organizations.

Q: How does EPRA Saskatchewan ensure that electronics are recycled responsibly?

A: EPRA is committed to recycling end-of-life electronic products collected through our network of drop-off locations in a responsible manner. EPRA only works with recyclers who have been verified under the national Electronics Recycling Standard (ERS) which was designed by the electronics industry to ensure that end-of-life electronics are managed in a safe and environmentally-sound manner. This means that all EPRA verified recyclers must be actively processing material that is entrusted to them by EPRA. Further, our Recycler Qualification Office (RQO) verifies the recyclers against the ERS requirements. This ensures that recyclers are maintaining appropriate environmental, health and safety controls and are properly handling all materials. For more information, visit www.RQP.ca

Q: How do I know my personal information will not be seen or stolen?

A: Consumers and businesses are responsible for ensuring that all personal data is removed from their electronic devices, prior to bringing them to one of our drop-off locations. If you are unsure how to do this, contact your manufacturer for more information. While EPRA Saskatchewan requires that all of our recyclers protect data on end-of-life electronics from unauthorized access or theft, it is your obligation to protect your personal information. EPRA Saskatchewan does not accept liability for data or any other digital content that is left on electronic products collected at our drop-off locations.

Q: How is the program funded?

A: EPRA Saskatchewan is funded through Environmental Handling Fees (EHF) that are applied on the sale of all new electronic products. It's not a tax, nor is it a refundable deposit. The EHF on each item in the program is based on the actual cost to recycle the materials contained in the product. All program revenue is used for the collection, transportation and responsible recycling of end-of-life electronics as well as program administration.

Q: Where will my recycled electronics go?

A: EPRA Saskatchewan manages end-of-life electronics according to the highest environmental standards at every stage of the recycling process. Once collected and sorted, items are sent to an EPRA approved recycling facility for dismantling, and proper downstream management. All other materials are separated into different streams to recover such parts as metal, plastics and glass and natural resources so they can be processed into new products.
